

## PROMOTIONISTS TO GO ON TRIP ROUND ISLAND THIS WEEK

Inter-Island Meeting of the Committee Will Begin Here Next Saturday

### DISCUSS PLAN FOR LIGHTING KING KAMEHAMEHA'S STATUE

Secretary Taylor Favors Idea, Declaring It Would Prove 'Big Tourist Asset'

The plans for the inter-island meeting of the Promotion committee on Oahu, which is to begin next Saturday morning, were the principal subject of discussion at the session of the committee yesterday afternoon in the chamber of commerce rooms. A program proposed by George Angus, was adopted, providing for a round-the-island trip which will last from early Saturday morning until noon Monday.

It is proposed to leave Honolulu in automobiles with the representatives from the other islands at about eleven o'clock. G. H. Vickers will be here from Hilo and W. O. Aikea from Maui, while Kani's present member of the committee, Cyril Smith, is already in town. It is possible that W. H. Rice, Jr., who has been named by Kani to succeed Mr. Smith, will also be here. Smith's term is just expiring, and he will retire from the board to give place to a man who lives on Kani more than he has done recently.

Committee Will Go  
All of the members of the committee present at the meeting yesterday will be members of the party. They are Chairman E. Bernhardt, George Angus, Ed Tamm, J. D. McInerney and W. D. Adams. The itinerary as agreed upon calls for lunch at Wahiawa, and dinner at Haleiwa, where Saturday night will be spent. At seven o'clock Sunday morning the party will leave Haleiwa for a visit to the Mauna Kea station, to Hana, and to the Seward Falls. Dinner will be served at Wahiawa, and the committee will spend the night there.

On Monday morning there will be a visit to the coral gardens at Kaneohe, in time to reach Honolulu by noon, with a side trip to Waimanalo if there is time.

The members are providing their own machines for the trip. It was left to Secretary A. P. Taylor to make the necessary arrangements for accommodations all along the line.

**Lighting Up The Statue**  
The proposition of maintaining a strong light that will be throughout the night upon the Kamehameha statue at the Judiciary building was favorably discussed. In connection therewith Tamm made further suggestion of illumination.

"A similar constant illumination of Punchbowl would be the real thing," he said. "Light is cheap, and in many towns all over the country, lights are directed upon special objects or scenes of interest."

Secretary Taylor said that the lights trained on the Kamehameha statue would be a "real tourist asset," giving many visitors, who would not otherwise have a chance to see the statue, a fine view of it at night, and naturally directing attention to it. This applies particularly to visitors who stay here, as passengers on through steamers, is only for a night.

The committee discussed finances at some length, laying plans to leave a surplus if possible at the end of the year, but being confronted with big expenses for supplies which are being increased in cost by war conditions.

## GAMBLERS PAY FINES INTO CITY CASH BOX

Common Nuisance Assessed \$50 and Costs By Judge Monsarrat

In the police court yesterday morning, K. Krane, charged with vagrancy, was fined \$50 and costs. Krane was held after it was learned that he had been making a common nuisance of himself in the presence of children and women on upper Nuuanu street.

Accused of pulling oil from a launch in the bay, which is contrary to the harbor regulations, George Leach appeared in the police court. He will be tried this morning.

Seven-eleven gamblers, who are continually rolling the dice in the vicinity of Beretania near River streets are a trifle frightened, say the police. Each morning during the past week a delegation has faced Judge Monsarrat.

Eight Japanese, charged with gambling were on the calendar yesterday morning. Two paid fines of \$10 and costs; two \$5 and costs, and four forfeited their bail.

**CHAMBERLAIN'S PAIN BALM.**

A touch of rheumatism, or a tinge of neuralgia, whatever the trouble is, Chamberlain's Pain Balm drives away the pain at once and cures the trouble quickly. First application gives relief. When a bottle of it is kept in the house the pain of burns and scalds may be promptly relieved, cuts and bruises quickly healed and swelling promptly reduced. In fact, for the household it is just such an emergency as every family should be provided with. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

## COUPLE ARE WED IN LAW OFFICE

Coast Shipping Man and Pretty Petrograd Girl Are Married Here

In A. L. C. Atkinson's law office, George D. Flood, San Francisco shipping man, well known around the Pacific, saw the culmination yesterday of a pretty romance which he inaugurated several months ago at Vladivostok. He and Miss Marie Sopliakova, a Russian girl, were united in marriage by Rev. Canon William Ault of St. Andrew's Cathedral. Attorney Atkinson and another man from the law office of E. A. Mott-Smith, witnesses, being the only spectators. The ceremony took place just before noon.

The wedding was conducted with all secrecy possible, but despite the care taken by the bridegroom and his friends the news quickly leaked out.

The romance is said to have started when Flood met Miss Sopliakova at Vladivostok, while he was in that city in connection with the sale of the steamer *Machinaw* to a Japanese shipping firm. It is reported that the bride is the daughter of a prominent family in Petrograd. On her marriage because she states that she is twenty-one years old; fails to give the names of her parents, and says both are dead. She is said to have been visiting at Vladivostok and in Japan two or three years before she met the San Francisco business man, destined to become her husband. Mr. Flood's age is given in the marriage certificate as fifty years. His former wife has been dead fifteen years.

After their meeting the romance evidently developed rapidly. He returned to the East to attend the graduation of his son from the naval academy at Annapolis, and then hastened back to Honolulu, his fiancée traveling from the opposite direction to this point. He arrived by the *Sierra* Monday, and she by the *Shinyo Maru* from Japan.

The couple are stopping at the Moana Hotel. They will return to San Francisco, by the *Matsonia*, if passage can be obtained in that vessel.

## JUDGE MAHAULU IN PEACE-MAKER ROLE

Brings Happiness To Two Couples In Piliikia

Judge Archie S. Mahaulu boys' probation officer-to-be, made himself useful yesterday in the juvenile court and succeeded in bringing to a happy termination a family row after the other of officials had thrown up the sponge.

Hot papa and a hulu mamama brought their trouble to Judge Whitney. They claimed that their daughter, a winsome maid of sixteen summers, had been induced to marry a young Hawaiian, whom they claimed earned only two dollars a week and in other respects was a no-good well. Daughter and son-in-law were summoned before Judge Whitney, who patiently heard the tales told by each concerned. After looking well into the piliikia, Judge Whitney called in Judge Mahaulu.

"Here, Archie, try your hand here and see how you make out," the jurist told the probation officer-to-be. Judge Whitney left the room, in which the whole family and Judge Mahaulu tackled the case. When he got through talking with papa and mamama and daughter and son-in-law, he called Judge Whitney in.

"Judge, see what I have done!" he exclaimed as Judge Whitney returned to the scene of hostilities. Mahaulu's eyes were moist and red and there appeared a suspicion of tears in his merry optics.

Judge Whitney did see what Mahaulu had accomplished. Papa and mamama and daughter and son-in-law were all jumbled in one mass, kissing and hugging each other. All piliikia had gone out of the window.

"Well, how's it now?" Judge Whitney asked the former infant father. "Do you still want me to send your daughter to the girls' industrial school and annul the marriage?"

"Aole, aole, no more piliikia," Papa answered, with smiles wreathing his expansive mind. "They all right now. They stay married long time. Every thing lovely and we been make forgive for everybody."

Judge Whitney turned to Mahaulu. "Archie how did you do it?" he asked.

"Well you see, Judge I used a little common sense of my own and I quoted scripture: 'Let no man put asunder those whom God hath joined together.'"

## FORBES PLANS TO DESIGN HIGH SCHOOL FOR HILO

Charles R. Forbes, superintendent of public works, will leave for Hilo this morning, to be gone until Sunday. He is going, he said last night, to attend to some road work in the Big Island, and also to lay out plans for a civic center and a modern high school. This last work he is going to do at the invitation of the Hawaii board of supervisors.

He will leave Honolulu after his return from Hilo, Wednesday, next, going from here to Vancouver Island, near Seattle, where Mrs. Forbes and their daughter, who is ill, have been spending the summer. From Vancouver Island Mr. Forbes intends going on to Washington, returning directly to San Francisco and Honolulu.

His formal application for permission to leave the Territory went to the Governor yesterday.

## RUSHING WORK ON SHAFER THEATER

Side Walls Are Up and Roof Is On; House Warming Soon

Work on the Fort Shafter Theater, is progressing satisfactorily. Lieutenant Wheeler successfully placed the last of the huge seventy foot trusses in position last Saturday, and the task of putting on the sheets of galvanized iron roofing began Monday morning. This part of the work is about one half completed. The two side walls are up, but the ends will not be in place until next week, when the stage will be moved to its new location at the north end of the building, and the operator's room moved. The latter will be placed with its front wall on a line with the back of the building, thereby allowing the installing of about one hundred more seats.

The new stage will be considerably larger than the present one, its dimensions being increased to forty-five feet in width and twenty-six feet in depth, with adequate dressing rooms. This will permit the erection of a twenty-foot front for the boxing exhibitions on the free nights, as well as enabling the management to stage more profitable vaudeville acts than in the past.

Arrangements for the big housewarming are progressing satisfactorily. Two four round bouts having been secured, as well as a professional vaudeville act, and several amateur acts. The entertainment will be by far the best ever given at the post and standing room will be at a premium within a very few moments after the doors are opened. The men are all looking forward with great eagerness to the event.

The date for the opening has not yet been definitely fixed, as Lieutenant Wheeler is not certain when his men will complete the building of the new stage.

## BOARDS APPOINTED TO EXAMINE OFFICERS

They Will Meet At Schofield Barracks and Shafter

Preparations for examining the field officers of the Oahu garrison are going forward apace, orders creating the examining boards for testing the qualifications of officers in the different branches of the service.

Brig. Gen. Frederick S. Strong, commanding officer of the First Hawaiian Brigade, stationed at Schofield Barracks, will act as president of the boards for Cavalry, Field Artillery and Infantry at Schofield Barracks, and Col. D. L. Holsen, president of the board at Fort Shafter. The order creating the boards, is as follows:

"Pursuant to instructions from the war department dated June 17, 1916, boards of officers as hereinafter constituted are appointed to meet at the call of the presidents thereof at the stations indicated, for the examination of such field officers, for promotion, as may be ordered before the boards.

"The junior officer of each board order, under the provisions of General Orders, No. 14, War Department, 1912, and such special instructions as may be communicated to the boards from these headquarters:

At Schofield Barracks, Cavalry—Brig. Gen. Frederick S. Strong, Col. John P. Guilfoyle, Fourth Cavalry; First Lieut. Royal E. Cummings, Medical Corps; First Lieut. Charles M. O'Connell, Jr., Medical Corps. (a) Brig. Gen. Frederick S. Strong, Lieut. Col. John E. McMahon, First Field Artillery; First Lieut. Royal E. Cummings, Medical Corps; First Lieut. Charles M. O'Connell, Jr., Medical Corps. Infantry—Brig. Gen. Frederick S. Strong, Col. Henry C. Hodges, Jr., First Infantry; Col. Samuel L. Pison, Twenty-fifth Infantry; Capt. J. D. Whitman, Medical Corps; First Lieut. Raymond W. Bliss, Medical Corps.

At Fort Shafter, Infantry, Col. Daniel L. Howell, Second Infantry; Lieut. Col. Benjamin W. Atkinson, Second Infantry; Maj. Benjamin J. Edgar, Jr., Medical Corps; Capt. Albert P. Clark, Medical Corps.

## PAUL TALLENT NAMED HILO BAND DIRECTOR

Paul K. Tallett, a well known local musician and formerly a member of the faculty of the government school at Honolulu, Hawaii, has been appointed leader of the Hilo Band and, with his family, will leave in the *Matsonia* on Friday afternoon for the Big Island. The Hilo Band has been in existence for upwards of thirty years, but only during the past few years has it received support from the County of Hawaii. When Prof. Joaquin Carso, founder of the organization, left for the mainland some months ago he was succeeded by Reverend Father Hubert, who resigned two weeks ago as director of the band.

## THREE STEAMERS ARE SUNK

(Associated Press by Federal Wireless.)  
LONDON, June 21.—The Italian torpedo boat was sunk Saturday, and the steamers *Beacy* and *Olga* Sunday, according to official announcement made here last night.

## SUPERVISORS FAVOR CIRCLE DRIVE PLAN

Board Leaves Way Open For More Hearings On Much Discussed Question

Attorney Sutton For Country Club, Makes Hard Fight Against Suggested Route

The board of supervisors last night placed its approval on a report from the city planning commission, which favors the route for a Puunui road as asked for by the residents of Puunui, as against that for which the Country Club, and some property owners in Nuuanu Valley, have been contending.

Both proposals have been discussed at great length for many months past, and were argued over quite a good deal last night, but though it was stated during the meeting of the supervisors that there had been enough discussion, and too much, the action taken leaves the way open for more public hearings.

**Sutton Fights Hard**  
A hard fight for the Country Club was made by E. W. Sutton, representing George S. Sutton, as a client owning property which will be affected by the road the Puunui Improvement Club is seeking. Sutton stated at the outset of his remarks that he appeared only as counsel for Mr. Sherman, but later in his argument he presented the Country Club's case, saying that he happened to be the only director of the club present, and therefore took occasion to speak for it.

The report of the city planning commission, signed by Mrs. J. M. Dowsett, gave that commission's efforts to settle the long-fought controversy over the route of the road that shall give the Puunui residents communication with the main roads. The report recommended, in brief, that the "Circle Drive" plan be adopted, a J. C. Boies, as president of the Puunui Improvement Club, addressed the board in favor of an immediate adoption of the report. He thought that the matter had been so long discussed that it was time for action.

Mr. Sutton spoke very strongly against the report. He declared that it would be very unfair to the country club to adopt the plan suggested, pointing out that the property taxes that would be assessed against the country club would be about \$7000, and that the club would get absolutely no benefit. He said that the club is not wealthy, and did not wish to have to pay such a sum for a road it did not want anyhow.

**Down To Brass Tacks**  
He also suggested that the road, "coming down to brass tacks," was for the benefit of real estate dealers in Puunui, and for owners of lots in Puunui. Sutton said that the club had done all in its power to compromise the controversy regarding the route the road should take, but had not been able to get together with the Puunui representatives.

He urged that the city planning commission's report be referred to a committee, for a further public hearing.

John I. Fleming surprised the gathering last night, filled the meeting room of the board, by a speech in which, as a member of the country club, he emphatically opposed its attitude. He said he had no authority to speak for the club, but that he knew there were trails owned by the people, the lands in dispute, years before the club was formed, and that it would not matter much to the club if it lost a "hole or two" in its golf course, by the construction of a new road.

When Sutton wanted to reply to this speech, Supervisor Hatch exercised his right of objecting to Sutton's making a second speech.

Supervisor Logan said that the public was tired of hearings on the subject and that if the matter had to be fought out in the courts, as a question of condemning rights of way, the fight had better start at once. Arnold said that the road committee could report with a week on the costs of the work of road construction, and the matter was left to the committee of the board. Report at next week's meeting, when City Engineer Collins will have figures regarding the cost of the road building, called for by the plan of the city planning commission.

## FERDINANDT'S PROPOSAL MEETS LEGAL BUMPS

The proposal to lease the public baths at Waikiki was brought up at the meeting of the city supervisors last night, on the reading of the application of Theodore Ferdinandt for a lease of the baths, on a promise to pay the city a percentage of the profits.

Supervisor Arnold objected on general principles, saying that he thought the baths ought to be altogether a public property. He proposed referring the matter to the committee of parks, playgrounds and schools. Hatch said it was wasting time to consider such a matter, as under the law there was no authority for the board to lease public park property.

"Bill" Larsen in sarcastic vein attempted to correct the former supreme court justice regarding the law, declaring that the legislature had given the municipality a right to lease the parks. Hatch said that if such a law had passed it must have been when he was away, and Hollinger declared that there was no such law, except as specifically applying to the jockey club. Arnold's motion to refer to the committee was carried.

## KALAKAUA AVENUE DISPUTE SETTLED

Concrete Pavement and Property Assessment Plan Agreed Upon By Supervisors

The Kalakaua avenue controversy, which was settled at last night's meeting of the board of supervisors, but in the action taken, there was some room left for a further public debate on the subject of what should be the character of the pavement on the avenue.

Supervisor Arnold, chairman of the road committee, presented a resolution which called for concrete pavement of the avenue, and which carried a general plan for the necessary property assessments. A representative of the building company addressed the board eloquently in favor of asphalt, referring to the success of the pavement on Fort street, and saying that concrete pavement was an expensive in the climate of Hawaii.

Arnold's resolution was preceded by a long list of "whereas," setting forth the fact that agreements had been reached regarding the proposed property taxes, and it declared for the carrying out of the improvement on the frontage tax basis. It was for pavement of the road with "reinforced concrete with a two course bituminous surface."

All curbing, it was set forth, shall be of level rock, and curbing that are now in place along the street lines as they are to be established.

Arnold's resolution was unanimously adopted, and then the city engineer's specifications for the work were read. They gave an estimate of \$107,407, as the total cost of the work, and placed the city's portion of the cost at \$50,405.52. The maximum frontage tax against private property owners for the general improvement is placed at 4.508 per front foot, and for the curbing 0.45 per front foot.

The resolution carried a proviso for a public hearing on the matter July 18, at 7:30 p. m.

It was the advocates of the asphalt pavement are likely to renew their fight at the meeting on July 18, but the board last night appeared to be solidly in favor of the concrete paving.

## JAPAN WILL ESTABLISH SUBSEA AND AIR FLEETS

Wars of Future Will Be In Water and Sky

"Japan is trying to make as many aeroplanes and Zeppelin-type dirigibles as possible, in the belief that they will be the strongest factors in warfare," said Mr. Abe, engineer of the Kawasaki Shipbuilding Company, yesterday. Mr. Abe was a thorough passenger in the *Shinyo Maru*, on his way to the mainland, where he will study the airship building business.

President Matsumoto, and Engineer Yamakawa of the company are in Italy now," said Mr. Abe, "studying aeroplanes and submarines, just as I intend to do in the United States. Our company is planning to open a factory for the manufacture of aeroplanes and Zeppelins."

"The wars of the future will be wars in the water and sky, as is now the case to a very large extent. Warfare will be submarine against submarine, and airship against airship. This is what Japan thinks, and the people of Japan are therefore studying the problems of air and submarine navigation."

The Nippon Jiji has received a telegram from Tokyo which says that the Kawasaki company has decided to have a Zeppelin plant capitalized at \$750,000.

## KING'S BIRTHDAY MAY BECOME KALAKAUA DAY

November 16, the birthday of the late King Kalakaua probably will be chosen as the date for the celebration of Kalakaua Day. Former officials of his court are to meet at Mayor Lane's office Friday morning at ten-thirty o'clock to discuss details of the observance.

Ceremonies somewhat similar to those to be held will take place at the San Diego exposition, and preliminary plans contemplate an electrical lighting scheme there, which will be set ablaze by Queen Liliuokalani.

Sitting in her place of honor at the Honolulu celebration the Queen will touch a button, sending on its way a current that will start the brilliant illumination at San Diego.

## M'ELDOWNEY IS APPOINTED

G. A. McEldowney has been appointed assistant in the city engineer's department, by City Engineer George M. Collins, to succeed C. V. Matson, who has resigned. The appointment, at a salary of five dollars a day, was approved by the board of supervisors last night. Another appointment approved was that of Frederick K. Wilhelm by City Treasurer Conking, as assistant license inspector and clerk, at a salary of seventy-five dollars a month.

## AN IMPROVED QUININE DOES NOT AFFECT THE HEAD

Because of its tonic and laxative effect, **LAXATIVE BROMO QUININE** will be found better than ordinary Quinine. Does not cause nervousness, nor ringing in the head. Remember, there is only one "Bromo Quinine." The signature of E. W. Grove is on each bottle.

## ACCIDENTS MUST ALL BE REPORTED

No Exceptions To Rule Public Utilities Commissioners Decide At Meeting

Accidents are accidents. It makes no difference whether the victim received a slight bruise or scratch, or is killed outright, the incident, if occurring in connection with the operation of any public utility corporation's business, must be reported to the public utility commission.

This was the commission's decision yesterday, on a query from the Oahu Railway and Land Company, asking for a definition of accidents within the meaning of the law, and jurisdiction of the commission. It asked whether trivial accidents should be reported to the board. The board's answer is in the affirmative.

The commission decided at Chairman Forbes' recommendation, to make no further investigation of the affairs of the Oahu Electric Company, of Lihue, Kauai, until it has operated for a year under the charter to which Congress is expected to give its approval within the next few weeks.

A communication was read from Mayor Lane saying the city authorities would investigate the report that the Hawaiian Island Packing Company is using the public roads for electric light poles and wires at Wahiawa, Oahu. He was unable to supply the commission with desired information whether the packing company is supplying electric current to the public. The company has denied that it is subject to the utility commission's jurisdiction.

Chairman Forbes, discussing the board's contemplated uniform system of accounting and bookkeeping for utility corporations, declared that it will not be the commission's intention to require such companies to set aside cash in their depreciation funds. Depreciation funds will be demanded, but they may be set aside as a portion of the sinking fund, or may be reinvested and their earning power as reinvestment figured in the total depreciation fund which must be accumulated by the end of the periods specified.

The chairman and Commissioner A. J. Gignoux will inspect the Honolulu Gas Company's plant Monday afternoon. That probably will be the board's final meeting for some time, as Forbes intends sailing the following day for the mainland on a lengthy vacation, and the board will have no quorum for transaction of business.

## RETAILERS ADVISED TO PAY THEIR TAX SOON

Internal Revenue Collector Expects Big Receipts This Year

If you happen to be among the eight or nine hundred merchants who owe Uncle Sam two dollars and forty cents for taxes, better pay at once, and save trouble for yourself later on. The time in which the tax on retail tobacco sellers, two dollars and forty cents for six months, and billiard table owners two dollars and fifty cents, also for six months, will be up June 30, and Collector of Internal Revenue Haley announced yesterday that no extensions would be allowed this year. He also said that the government has imposed an increased penalty on those who fail to pay on time.

Incidentally the collector said that 1916 is going to be the biggest year for receipts in his office in the history of the Territory.

"Time was," said the collector, "when \$40,000 would have been considered a very good collection for this office. Year before last, however, the receipts had risen to almost a quarter of a million dollars and last year they were in the neighborhood of \$400,000. This year they are going to do vastly better than that. I cannot say how much."

Mr. Haley explained that the rules of his office forbid his making public the total figures for the collections, but he admitted that they might exceed three quarters of a million dollars.

It is not the large concerns that trouble us," he said, "but the smaller ones." It takes time to make out the tax payers and unless these people hurry it is going to be impossible for the office to turn them out fast enough to keep the list comes from being delinquent. That is going to mean a heavier penalty this year and no exemptions."

Judge Monsarrat yesterday dismissed a police court case growing out of a neighbors' row in the Aylmer road, by acquitting all the accused and telling them not to quarrel any more. The defendants were Annie Levy, A. Ah Poo, and Mrs. Ah Poo and daughter, charged with disturbing the quiet of the night.

Prosecuting Attorney Chillingworth told the court that the differences of opinion between the Levy and Ah Poo families were not a new occurrence, and it appeared that a high board fence had been built between their homes, but didn't prevent some fairly strong language being passed back and forth. The judge said, in deciding the case, he had no doubt that some profane language had been used in the disturbance, but he contended himself with advising all parties to "cut it out" in future.

## HIGH BOARD FENCE DOES NOT BAR ROWS

That morning lameness, those sharp twinges when bending over, and that dull, all-day backache, are enough reason to suspect kidney trouble. Get right after the cause. Help the kidneys.

## WRATH ON BORDER GATHERING HEAT

Stories of Fresh Insults To Flag and Citizens Stir Anger of Frontiersmen

(Continued From Page 5)

Nor was the feeling lessened by the reports of a party of American refugees who reached Douglas Arizona, with the story of a fresh Mexican outrage upon the American flag, at Cananea, and the attack of a Mexican mob upon the hotel in which were a number of American guests, and the consulate of W. A. Julian, the American consul. According to this story the assault on the consulate and the insults to the flag happened during a demonstration against the Americans, during which hundreds of rifle bullets were fired at the American flag floating above the consulate. The mob shouted insults against the flag, and against the United States. The efforts of the mob to shoot away the flag pole and bring down the flag failed, said the refugees, and the Stars and Stripes were still flying, though riddled with bullets, when the refugees left the city.

Elsewhere in Mexico the situation is little better. The American authorities at Vera Cruz are preparing to send refugee trains into the interior of the country, and other cities are doing the same thing. It is estimated that there are still several thousand Americans in Mexico unable to reach the border and safety, unless steps of this sort are taken.

## CIVIC SERVICE JOBS SAFE FOR ARMY MEN

(Associated Press by Federal Wireless.)  
WASHINGTON, June 21.—The federal civil service commissioners issued a statement yesterday announcing that governmental employees will not lose their positions in the service on account of military service. This statement is made, it was said, in response to many inquiries from the civil service employees in different parts of the country.

## GOLD IN BORDER BANK IS REMOVED

(Associated Press by Federal Wireless.)  
WASHINGTON, June 21.—Comptroller of the Treasury Williams announced last night that he has authorized one of the largest national banks on the border to remove its gold reserve to an inland city. An attack by Mexican bandits is feared, said Mr. Williams, and it was deemed best to put the treasure in safety. Mr. Williams declined to name the location of the bank.

## PANAMA CANAL UNDER ADDED SAFEGUARDS

(Associated Press by Federal Wireless.)  
PANAMA, Canal Zone, June 21.—The authorities have been instructed to adopt additional precautions for the safeguarding of the Panama Canal, in view of the crisis in Mexico. Additional patrols have been sent out, and the zone police has been called upon for extra duty. All strangers are being carefully watched.

## CRUISERS LEAVE FOR MEXICAN PORTS

(Associated Press by Federal Wireless.)  
SAN DIEGO, June 21.—The United States cruisers Colorado and Pittsburgh sailed from this port yesterday for Manzanillo, Mexico. They followed the cruiser San Diego, which left earlier in the month for the same port. Rear-Adm. Cameron Mearns Winslow, commander of the Pacific fleet, who is believed to have gone earlier to Guaymas or Mazatlan. The destroyers, Hull, Truxton and Hopkins will leave some time today.

## HINDOO POET WILL SAIL FOR AMERICA NEXT MONTH

(Special Cablegram to Nippon Jiji.)  
TOKYO, June 21.—The Hindoo poet Tagore announced yesterday that he will leave Yokohama about the end of July for his projected lecture tour of the universities in the United States. The poet-philosopher has been visiting Japan, and many society engagements had been arranged, but his departure for his departure for the United States.

## WHY THAT LAME BACK?

That morning lameness, those sharp twinges when bending over, and that dull, all-day backache, are enough reason to suspect kidney trouble. Get right after the cause. Help the kidneys. Kidney weakness is about the most common ailment known. We work too hard, we worry, we eat too much (especially meat), we drink strong drinks, and we neglect our outdoor exercise, rest and sleep.

This sort of a life fills the blood with poisonous wastes and the kidneys weakened from the overwork of purifying heavy blood.

Of course such habits must be given up if the sufferer wants to be rid of kidney trouble for good. But the kidneys need outside help. And that is just what Doan's Backache Kidney Pills are for. People all over the world recommend Doan's. If your trouble is like this, get a box of Doan's and try them.

"When Your Back is Lame—Remember the Name." Don't simply ask for a kidney remedy—ask distinctly for Doan's Backache Kidney Pills and take no other. Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50c a box, (six boxes \$2.50), or will be mailed a
